Introduction

This astrological report is designed as a guide for the New Age woman and in it I have considered how the astral influences affect a woman in particular. A great difference exists between the interpretation of a horoscope of a man and a woman, and that is what I am trying to make clear here.

This report is divided into two sections: the first one analyzes your personality with its multiple facets (Sun and Moon positions); and the second one analyzes the twelve astrological houses.

This report is not merely descriptive. In the majority of cases, ideas are suggested that can help your personal evolution. The subjects are approached from different points of view such as metaphysical, spiritual, nutritional and general.

In a few places there may be certain contradictions because an astrological influence may favor one aspect of life and harm another. Because of that, it is necessary that you read the report with a bit of logic and, especially, that you let your intuition guide you.

Woman has greatly changed her social position over time and the realization of the New Age depends in great measure on her. Because of that it is necessary that you know yourself, that you know your potential and your limitations, because by working on your personal evolution you help everyone else as well, contributing to the evolution of all life.

FIRST PART

Chapter 1:

Your essence. Your self. The Sun.

**Character is destiny. By improving
your personality you create good
conditions for your future.**

Sun in Pisces:

Elizabeth, you were born under the sign of Pisces and your ruling planets are Neptune and Jupiter, which empower you with great kindness, sensitivity and mysticism.

You are a gentle, romantic, idealistic and helpful person. Your great sensitivity leads you to feel compassion for needy people and you are always willing to help and sacrifice for your loved ones. Your aspirations in life point more towards self-realization in the emotional field than in the material one. You are very intuitive and perceive everything that occurs around you. You will be very sought after by your friends or family for the moral support you offer, causing you tension because you will delve deeply into their problems.

You are kind and very loving; you are also a dreamer. You express affection easily, becoming emotional when confronted with nature, animals, art and, especially, music.

You have great artistic abilities through which you can channel your inspiration. You are very idealistic and rarely see people just as they are, which will cause you to be easily deceived.

Your helpful attitude is expressed with more intensity when you are in love. You are willing to give everything, to alter your life totally, by changing your residence, your job, etc. You enjoy life immensely when you are in love and are loved in return. You need to feel protected and supported by your companion. The material world can be too complex for your fantasies and extreme sensitivity, and because of that, you will search for someone to resolve those things you cannot. In return, you will do everything possible to make the man that accompanies you very happy.

Elizabeth, you were born to serve, to help, and to heal people, and also to collaborate with others. One of your missions is to teach others to act in an unbiased, loving way. You will excel in humanitarian and artistic activities and in those areas in which you can develop your sensitivity, compassion and intuition.

To evolve, you need to be more realistic and practical. You must leave your shelter without fear and participate fully in life. Avoid procrastination, laziness, and shyness. You must learn how to organize yourself and your finances to avoid economic chaos. You can be easily influenced and the success of your objectives depends greatly upon the support you receive. You must learn to overcome the search for approval and shed your victim-like pose, instead assuming your proper responsibilities.

Sun in 3rd house:

You have an outstanding mind that will lead you to think of very original solutions to your problems. It is important that you study and grow intellectually because that will form the basis for your self-confidence. You can excel in activities related to communications such as journalism, literature, speaking, etc.

If you have brothers, they will be an important influence in your life and you will probably have a particular fondness for one of them. You invest a lot of importance in your immediate environment, and you will search for a good neighborhood in which to live.

Because of your mental restlessness, you will travel a lot and wish to meet different people. You will be very curious and you will be interested in knowing different things. On the negative side, you have a tendency towards impatience, inconsistency and arrogance; you can also be very opinionated with your ideas.

Sun Conjunction Mercury:

You have a powerful mind but you can be very inflexible and adamant in your opinions. It is important that you meditate more and avoid doing things impulsively. You will attack your projects in an ardent and tenacious manner, and will show great ambition and creativity in what you undertake.

Your thoughts can be faster than your body, which will lead you to believe that you never have enough time, that you have to solve things immediately, or that people get

in your way. It is necessary that you get organized so as to have adequate time for the tasks that you undertake, minimizing any suffering from stress.

Sun Conjunction Mars:

You are very aggressive, dynamic and brave. You will feel a strong impulse towards action that will lead you to be in constant motion. It is probable that you will become angry or lose your patience easily but you will also forget quickly that which makes you lose control. You are very direct and frank with your opinions and your lack of tact can cause certain problems.

You are a competitive woman and find pleasure in the challenges you encounter. Some of them will lead to your rivalry towards men or to situations requiring great physical effort on your part. You can excel in a sport or in a position where you can freely express your military temperament.

You tend to excel and to dominate others. You have a combative, proud and vital nature. At times, you will ignore your own limitations and be exposed to accidents or dangerous situations.

Sun Opposition Neptune:

You are very susceptible to slights and are easily hurt. You tend to underestimate your own value and your chances of success, giving way to fears and insecurities. You have a huge imagination, much inspiration and a sensitivity towards living beings, and you can excel in humanitarian jobs, but first you must learn to be more practical, solid and realistic in your objectives.

The relationship with your father was confusing and weak, generating insecurities during your childhood. You may have had an evasive or ambivalent father with a weak character who did not offer you the love that you then needed. This may have become your first deception in love. You are prone to seeking in your husband the love that you did not have and that can lead you to confusion. Try to be objective and see people the way they are to avoid disillusion. You may relate to evasive men who do not commit to anything or who escape from their obligations and need your attention.

You must learn to not become a victim and assume that you have control over your life; do not become bewildered or submit to internal fears. Your self-esteem may be low and it is necessary to elevate it first so that you can establish better relationships.

A strong tendency to evasiveness exists that can lead you to vices. Strengthen your spiritual side and trust your own resources to solve your problems: nothing will be so terrible in reality as it may seem to you.

Chapter 2:

The Moon. Your emotional world.

Moon in Scorpio:

You identify yourself as a strong, aggressive, combative and loyal woman. You like being direct with your opinions and you do not beat around the bush. Though your image is that of a strong woman, you are very sensitive and can react in anger or aggressiveness easily, perhaps abruptly or impulsively, and you are not very willing to tolerate anyone or anything that gets in your way. You can hold grudges for a long time and harbor desire for revenge for unjust situations that you have endured in the past. You must learn to forgive and forget in order to live with more freedom and harmony in the future. You tend to impose yourself on others and dominate those around you. Your tremendous will power allows you to overcome crises successfully and you have the strength necessary to recreate yourself over and over. In addition, you have an investigative soul and you are fascinated by mysteries.

Your emotions are deep and very lasting. You like to share intensely your feelings with your companion and you give yourself to love entirely, both in the physical and in the spiritual plane. You are jealous and possessive. You want to share everything with the one you love all the time. You can become manipulative and attempt domination through your emotions. Try to act with moderation, patience and understanding because if not, your romantic life will be very stormy.

The relationship with your mother could have been unsatisfactory and you are not willing to follow in her footsteps. Your mother could have been all-consuming, overprotective or unsure of allowing her children freedom. It is possible that there were misunderstandings or simply a lack of identification between the two of you.

As a mother you will be very demanding of your children. You will be aware of their needs and you will accompany them in every step of their development. You are very intuitive and that will allow you to easily interpret their thoughts. You can be very dominant, inflexible or impatient with them. Try to teach them to trust their own decisions, and avoid demonstrations of excessive or suffocating control; let them be free.

During previous lives you suffered from a lack of confidence in those around you, and also from emotional hurts and crises that have led you to develop a great survival instinct. Many extreme changes and the loss of stability in the past makes you cling passionately to your loved ones. In this incarnation you must learn to relax, to live without so much anxiety and to use your aggressiveness in a constructive way. You must express your emotions freely, without demanding or expecting the same response in return.

Moon in 11th house:

Your feminine identity is largely manifested through your social life. You value the friendships you have and you give yourself wholly to them. In exchange, you receive the affection and contentment that you look for. You will have very important and loyal female friends who will remain by your side for life, but due to your idealistic and romantic nature, you can also be deceived by false friends. The relationship with

your mother can be very positive and, even if there are differences between the two of you, it is probable that you become good friends.

Elizabeth, you have the ability to blossom in group activities. You can coordinate, direct or simply participate in them and find satisfaction.

In addition, you must learn to be more persistent with your goals and not change so easily. Your moods will influence strongly your capacity to persevere. You must be more analytical and objective at the time of making your decisions.

Moon Square Jupiter:

You are very kind, happy and optimistic. Your generosity seems excessive and that can cause problems. You must learn to set limits on giving and not trust others so much.

You tend to exaggerate, and like ostentation and some extravagance. You are overly self-confident which makes you prone to business or legal problems. You can be indulgent, lazy or careless. Do not wait until you have problems to organize yourself and order your life. This configuration can lead you to gain weight easily.

You have a satisfactory emotional world but you are inclined to search for more. Try to be honest and do not let yourself be tempted by illegal or poorly conceived businesses that are apparently risk free.

Your mother was overprotective of you and solved (and probably still does solve) many of your problems for you; because of that, you act in a carefree and careless manner. It is important that you mature and abandon your comfortable and dependent position.

Moon Trine Pluto:

You are dynamic, strong and decisive. You feel very sure of being a woman and you demonstrate great authority wherever you are. You can lead groups or work in places where you benefit people. You will help to produce change and by example you will teach other women how to achieve more important social positions.

Your emotions are deep and intense, and you give yourself totally to your feelings; because of that, you reject superficial and fleeting relationships. You tend to impose yourself in a subtle and warm manner. You are protective and you feel you have the necessary strength to help anyone in need. You can recover completely from any emotional crisis you go through.

Your mother has demonstrated much authority and dedication to her home and from her you have learned to act in a similar manner. In spite of the strong character that each has, you will respect and help each other. You will transmit much emotional security to your children.

SECOND PART:

Your destiny according to the 12 astrological houses.

FIRST HOUSE: Your personality. Your body. Your childhood.

Sagittarius Rising Sign (1st house cusp)

People see you as a restless, happy, and very spontaneous woman. You leave a bit of humor and joy everywhere you go.

You have a very jovial and childlike attitude that will make you look younger than you really are. You are very curious and like to know everything that is going on around you, so you act freely and relate easily to people. You are ingenious and easily influenced by others;

you must try to surround yourself with positive and sincere people. You become enthusiastic with any new project because you like adventure, but can abandon them quickly if you become bored or lose interest. The same happens in your romantic attachments. You must learn to control impulsiveness to avoid future problems. In addition, you are idealistic and you like just causes. You are also interested in traveling, especially to faraway and strange places.

You are very energetic and that will keep you active. It is recommended that you practice a sport or exercise regularly, or you will become more aggressive. You should also be more conscious of your nutrition and be careful with excesses because you have a tendency to gain weight easily. Do not neglect or abuse your vitality.

Your childhood was generally happy and you received everything you needed. Also, it is possible that you were overprotected by one of your parents and that leads you today into being more dependent, spendthrift and whimsical. If you did not learn to be orderly then, you will not be so now nor in the future. You must be conscious of your obligations and responsibilities so as not to generate problems in your practical life, and do not look for someone else to solve them. You must maintain your optimistic attitude and your sense of humor because they will generate positive energy in every aspect of your life.

SECOND HOUSE: Money. Assets. Resources.

Capricorn on 2nd house cusp.

Your economic progress in life will be gradual, slow, and progressive thanks to constant work and your maturation over time. Because of this, it is possible that during the first part of your life you suffer from several limitations, ups and downs or delays in the material plane.

You can excel in administrative or organizational jobs or those in which you assume big responsibilities. You must learn to manage your own earnings, and also to save for the future; that way you will avoid pitfalls and difficulties.

If you do not maintain your self-esteem and elevated confidence, you will suffer many economic frustrations and will seek protection from your close relatives and friends. You must trust your own initiative.

Mars in 2nd house:

You have many ambitions and work hard to achieve what you want in the material world. If you do not get it immediately, you can become impatient and aggressive. You could earn a great deal of money but you also spend a lot: you are generous and wasteful. You like those enterprises that challenge your ability, where you can make use of your physical and mental energy. You feel more satisfaction with what you achieve through your own effort and work, and so, your parents should not have resolved your problems but instead given you tasks and challenges. You must learn to be careful with money or you will possibly experience economic crises.

Mars in Pisces:

You are very sensitive and feel resentment easily. You need to rest often to recover your energies, especially at night. You can have a pleasing and nonaggressive stance, which allows your friends to take advantage of your affection. Generally, you avoid confrontations of any kind and have difficulty in expressing your own aggressiveness; it is probable that you surround yourself with combative or demanding friends who somehow express what you can't. This is not good and will only reaffirm your own insecurity, which is why it is better if you have not been overprotected by your parents so that you learn to fight for the things you desire. On the positive side, this same astrological position suggests a predisposition towards working and offering yourself in an unselfish way to the people who need you. You will not need to feel recognition nor to be at the top. You have very intense emotions but only partially show them.

Mars Opposition Neptune:

You possess a strong imagination and have a lot of fantasies but you lack the ability to take them to the practical and concrete level. It is probable that you are afraid of your own aggressiveness and you consequently doubt your own authority. You are prone to allergies to certain foods or drugs and must be careful with your diet. You can become fanatically stubborn about your convictions, hiding your fears and weaknesses. It is important that you develop more self assurance and the initiative to solidify your dreams.

Saturn in 2nd house:

You could have grown up in a family that was constantly worried about money, suffering from economic difficulties and consequently, you developed a preoccupation with reaching financial stability. You are cautious and thrifty because

you fear the lack of money. This astrological position does not deny the possibility of making money but does suggest you will accumulate it in a slow and gradual manner; you must be orderly and persistent to obtain your success, and you must also overcome your anxiety. You could make money by investing in real estate.

Saturn in Aquarius:

You possess great powers of concentration and your mind is scientific and democratic. You have a great facility for inventing things, developing new ideas, interpreting abstract symbols, and understanding mathematics. You have many ambitions and will work hard to obtain them. You are very responsible towards people and loyal to your friends, and though you possess a strong sense of freedom that will not stop you from working well in groups. You could also display some selfishness and resentment towards those things that do not please you. Your intellectual attitude can lead to detachment and lack of commitment.

THIRD HOUSE: Your mind. Your education. Short trips.

Your brothers and sisters.

**The mind is a magnet: it attracts
to you exactly what you
think about.**

Pisces on 3rd house cusp.

Elizabeth, you are reserved, introverted and receptive. You have a great imagination that feeds your mental processes and you can bring forth very creative ideas. You are also inconsistent and hesitant; it is possible that you cannot concentrate easily and that illusions or fantasies interrupt you frequently. Your communication is gentle and you need to feel a favorable emotional climate in order to express yourself peacefully.

With respect to your studies, it will not be easy for you to decide what path to follow, especially if you do not have a very clear vocation. You will change schools or institutions, or will abandon your studies if difficulties arise. Your orientation is humanitarian and you will be concerned about knowing human beings in all their various aspects. You can excel in studies that vary widely such as medicine, psychology, art, music, metaphysics or naturalism. It is recommended that you alternate some of these studies with your main professional choice in order to feel more complete.

Also, you will devote yourself to your siblings (if you have any) and other close relatives, concerning yourself greatly with their well-being. It is also possible that you take short trips by sea.

Mercury in 3rd house:

You are very intelligent and are avidly interested in knowledge. Your restlessness will make you question yourself and ask about all the people around you. The danger exists that you will not concentrate enough on any one topic, but instead will tend to know a bit about everything. You do not like to remain in the same place for a long time, and that includes both being seated at your job and remaining at home. You will make many small voyages that will enrich your intellect. You have great literary ability and could excel as a journalist or investigator. In general, you will have good communications with people and especially with your siblings.

Mercury in Pisces:

Your mind is imaginative and receptive. You have a great intuition that allows you to know the ideas and feelings of others without anyone uttering a single word. Your great wealth of fantasy and inspiration give you an aptitude for artistic or literary works, but they can also accentuate your tendency towards evasiveness. Often, Elizabeth, you prefer to live in your magical internal world instead of confronting cruel reality. Your mind is not completely logical or rational, instead it is controlled by your emotions. Your manner of communication is changeable and you are only open with those with whom you have an close ties. The lack of concentration and consistency can cause difficulties in your studies but if you receive the encouragement you need, you will assume all your responsibilities. It is difficult for you to be objective in your opinions and you are easily influenced. You will be interested in everything related to psychology and nature, and you will probably have difficulty with mathematics.

Mercury Conjunction Mars:

You posses a great amount of mental energy and you are very restless, curious and impatient. Your mind is clear and incisive. You like to talk and participate in debates where you can demonstrate your mental acuity, though you can also be somewhat satirical and controversial and even harsh when judging others. Your aggressiveness will be manifested especially in verbal form and it is important that you learn to control your impulsiveness and not say or do things for which you will be sorry later. Elizabeth, you tend to dominate every situation you confront and will defend your opinions, whether they are correct or not, aggressively.

Mercury Opposition Neptune:

Your mind is full of fantasies and illusions. It is hard for you to be objective and concrete with your ideas and you tend to be disorderly and lose concentration on your studies. Your extreme sensitivity may lead you to retreat to your fantasy world when you feel disappointed or hurt. Because of your creative and imaginative mind, you can excel in artistic achievements where you will communicate your ideas more easily. If you have grown up in a stable and harmonious home you will avoid your escapist tendency.

FOURTH HOUSE: Your home. Middle Age and Later Years.

Aries on 4th house cusp.

Life in your family home was tense, active and stimulating. One of your parents showed much character, authority and aggressiveness, and there were probably frequent discussions and fights. You found in your home as much stimulus for your enterprises as strong opposition. You grew up in an active home and, somehow, that impelled you into action.

During your maturity you will be a very dynamic, energetic and hard worker. You will not be able to conceive of retiring or being passive during your senior years. You will feel full of vitality and enthusiasm, and will show yourself to be capable of initiative. You will be youthful, positive, aggressive, and impatient with people who get in your way because you are not willing to waste your time.

In this stage of your life, you undergo radical changes of various kinds (home, work and companion), so that you feel you are beginning an independent and full cycle. This influence offers you a long life.

Venus in 4th house:

You love your parents and your home life. You are very sensitive towards your environment and you worry about having a comfortable and well-decorated house. Your great idealism about love can cause you to marry late in life. You will be very happy in your maturity and you will never lose your tremendous optimism.

Venus in Aries:

You are passionate and express your feelings openly. It is probable that you are sometimes rough or selfish in your display of affections; also, you are possessive and whimsical, which will bring future problems in your love life. You experience love intensely and do not like a lot of routine. Elizabeth, you enjoy conquest and seduction and it is likely that you will experience many love adventures, where you will be the person who initiates the friendship or courtship. This astrological position can also make you impatient and aggressive in spite of the love you may feel. It is important that you develop a larger understanding of others' feelings.

Venus Conjunction Uranus:

You are very sociable and yet particular in choosing your friends. Generally, your parents do not get along with your friends and this trend will get stronger as you age. You are rebellious and seek your freedom. Your creativity is outstanding though it is also probable that you are a bit scattered and impulsive. You will not feel good with ties or routines and it is recommended that you learn to respect the feelings of others, because you will have to change quickly when you become entangled in unusual situations. The ideal thing would be to listen to others when they offer advice, if that is possible!

Venus Square Pluto:

You are very demanding of the people you love. You can feel jealous when one of your friends also has another friend because you want to hoard all the attention. Your emotional life will be very deep and complex at the same time. It is probable that you grew up in a somewhat chaotic home, with intense demonstrations both of affection and aggressiveness. Your passion could complicate your life, especially in financial matters. Your sexual life will also be intense and it is recommended that you get a good education on that subject. You will experience stormy romances, with extreme emotions that go from love to hate and vice versa.

Venus Trine Jupiter:

You have a very strong sense of justice and harmony. You express yourself freely and your feelings are ample and sincere. You enjoy life very much and you will find a lot of love on your way. Your social life is very intense and you receive support and cooperation whenever you need it. You have a strong aesthetic sense that will be reflected in your possessions and you feel at home in a warm, comfortable and well-decorated environment, preferably rather quiet. Your positive attitude will lead you to be lucky in general and to obtain what you want without much effort. It is probable that because of this you are can also be a bit lazy.

Uranus in 4th house:

You will experience many changes of residence and a few ups and downs in your family life. Your mother has a very particular personality and is very original and independent in her thinking. In general, you have unusual family ancestors; you experienced irregularities during your childhood, either being separated from one of your parents or living under an unusual circumstance. You did not choose a calm and steady life in one place, and because of this, your changes of residence, work, companion, friends, etc., will be frequent. As an adult, you will always display a strong interest in Astrology and occult sciences.

Uranus in Aries:

You were born in a generation of pioneers, independent and confident in themselves, with the will to achieve their goals and rebellious toward authority. You belong to a restless group and will break many old-fashioned traditions and customs. Creativity and the emergence of new ideas will be other important characteristics. It is probable that you are full of mental energy that, used in a constructive manner, could lead to excellence through inventiveness; otherwise, your rebelliousness, your lack of control and your fanaticism will increase and you will end up wasting your talents.

Uranus Square Pluto:

You are often impatient and combative. You become angry in certain situations and could adopt a negative or destructive attitude in the face of things you dislike. You have strong political ideals and will fight against injustice. In addition, you will not tolerate being restricted or limited in your expression and will react violently to your oppressors.

FIFTH HOUSE: Love. Romance. Children.

**"Love is blind when it is born,
nearsighted when it grows, and
it sees all when it dies."**

Taurus on 5th house cusp.

If there are no indications to the contrary, you will have a moderate number of children: one or two. They will be very loving, sensitive and attached to you. You have to be very demonstrative with your children and offer them the emotional security that they need and in the future you will receive a lot of love in return. Your children will tend to be possessive and to require a lot of attention from their mother. Try not to be overprotective or too complacent.

You associate love with the idea of stability. You are not attracted by fleeting or seductive relationships and you desire a trustworthy, solid and permanent man in your life. Even though you are very romantic, you keep your feet planted firmly on the ground and you think a long time before opening your heart to someone. Once the initial coldness is overcome, you prove to be passionate and sensual. You have stable and long-lasting feelings and, at times, will stay fervently attached to a relationship even if it has no future.

This configuration suggests few courtships or long-term relationships; however you have great charisma and, even though you do not seek it, you will always have an admirer in your life.

The following list will help you understand how you can relate yourself to the rest of the signs. If you happen to know the other person's rising sign, you have to combine it with his/her sign in order to get a more complete description of that person.

Sagittarius:

You will feel a great personal identification with people of this sign and together you can develop projects common to both. A good sign for marriage.

Capricorn:

A relationship tied in with business, finances or financial aid is favored over a romantic one. The union offers stability and protection but could also be out of an interest in money.

Pisces:

You could maintain very good communication and an interchange of ideas. A mental or light relationship is indicated.

Aries:

A personal and intimate relationship in which deep emotions will be shared. A very good sign for marriage because it indicates the possibility of making a home together.

Taurus:

A relationship of mutual love and attraction. You can enjoy and share many happy moments but difficulties exist in maintaining the relationship over time. Ideal sign for courtship or romance, not for marriage.

Taurus:

An unequal relationship in which one offers more than the other. A difficulty exists in openly expressing feelings. A work relationship is favored over a romantic one.

Gemini:

Ideal sign for marriage or associations. It is also possible that one of your best friends is of this sign. This is a sign of complements; each can have opposing personal characteristics and that generates attraction.

Cancer:

Magnetic and intense attraction is indicated. Sign of passionate and uncontrolled romance based on a strong sexual attraction. A relationship that implies a dare or a strong emotional experience.

Virgo:

A sign that represents a second marriage; a happier and more spontaneous relationship based upon the exchange of ideas common to both. One could assume a protective or teaching role with the other. Probability of an encounter in a foreign land or of long voyages together.

Libra:

A sign that stands out in your destiny. The people of this sign, both friends and lovers, will exert an important influence in your life. It is an ideal sign for marriage because it points out objectives and ambitions common to both, but it can also indicate too much worry over social status.

Scorpio:

Sign of friendship that represents common desires and fantasies. Open, friendly, happy and warm relationship, though probably it will not be lasting. If other common

elements exist, it may lead to a marriage based on friendship and respect for each other's individuality.

Scorpio:

Karmic relationship initiated in previous lives. It is possible that you have to confront strong difficulties to be together and that it is a clandestine or secret relationship. Also, it can indicate an impossible or intriguing love affair. This sign is the least favorable for obtaining a happy and open relationship; if you are involved in one, it will be difficult for you to cut yourself off or escape because of doubts about your destiny and the lessons you have to learn.

Remember the following: everything that he does to you is what you did to him in previous lives. It is good for you to practice the exercise of forgiveness and forget any negative emotions.

Note: if two signs are repeated, it means that the relationship is more complex. If one of the signs is missing, its interpretation is the same as the previous one. To make things easier, this is the list of the signs: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

All relationships are PERFECT. Each situation you experience with another person is the perfect and necessary one for your evolution; because of this, it is important that you do not cling to negative emotions such as anguish, depression, fury, frustration, etc., and that you try to see at every moment what life wants to teach you. Each person you know has a message for you and until you listen to it, it is highly probable that it will be repeated. Some relationships have karmic ties: they have been initiated in other lives and there may be dues to pay. It is possible that what someone makes you suffer is what you have done to him/her in another time. That is why you must forgive and forget. In every situation repeat to yourself : "everything is perfect"; though at the beginning you may not understand it, later it will be crystal clear.

SIXTH HOUSE: Health. Nutrition. Work. Service.

Attention: in this section you will find recommendations to improve your health, but in cases with specific problems you must consult your doctor.

Sun in Pisces:

Pisces rules the feet, including the toes, ligaments and muscles, the lymphatic system and the human psyche. You are very receptive and sensitive, and your body tends to react to your environment. Many of your organic problems originate in emotional disturbances, which makes the diagnosis of your illnesses difficult or, possibly,

erroneous. You are very suggestible and must avoid surrounding yourself with negative people. Also, you are very careless and disorganized with medical treatments or diets. Your laziness added to your tendency to retain fluids can lead you to gain weight very easily. You can also become addicted easily so you must learn to avoid sedatives, alcoholic beverages, drugs, and to sleep only the necessary amount of hours.

To preserve good health, you must consider the following: do not avoid your problems by sleeping a lot; have some type of artistic and creative outlet; maintain a macrobiotic-type or vegetarian diet; be consistent with your diet; restrict yourself from salty foods and use salt without sodium; search for harmony and internal peace by surrounding yourself with positive people, attending spiritual meetings or groups, or practicing Yoga and meditation; pray; avoid self-medication completely; have direct contact with nature, especially with water; express your emotions and communicate your distress; do not smoke or drink alcohol; maintain some type of physical activity or a noncompetitive sport; listen to soft music and perform mental control exercises to eradicate acquired negative thoughts or suggestions.

Saturn in Aquarius:

This astrological position can cause a lack of oxygen in the body, leg cramps because of lack of calcium, anemia produced by a weak colon, dislocation of the ankles, spinal deviation and compression or spinal sclerosis.

Taurus on 6th house cusp:

Your short term health problems may be caused by an excess of sugars and starches, and by the lack of vitamin E, niacin, niacin amide, copper and chromium. This could lead to tonsillitis, angina, swollen neck glands, polyps, loss of voice, or muscular pain in the neck.

It is recommended that you improve your diet by avoiding sweets, carbonated drinks, ice cream, cream-filled pastries and anything that can lead to an excess of sugar; in its place, you must learn to eat fresh fruit in season and drink freshly-squeezed juices. Recommended vegetables are: watercress, mushrooms, broccoli, peas, alfalfa, soy sprouts, brown rice, wheat germ, nuts, seeds in general, bee pollen, etc.

Your long term health problems may be caused by the lack of amino acids, iron, phosphorous, cobalt, vitamins B-12 and F. This could lead to sinus colds, diseases of the mucous membranes and nasal cartilage, hernias, bruises, fractures, stones, muscular weakness, etc.

It is recommended that you add to your diet: spinach, beets, lentils, broccoli, onions, olives, avocado, and all the red-leaf vegetables.

To have in mind: many of your emotional unbalances are not produced by external situations or experiences but by blood disorders. The lack of some nutrients or intoxication or other excesses, can often cause changes in your system and lead to depression, anguish, fatigue or aggressiveness. Because of that, if you want to be happy, do not neglect your body--give it the best nutrition possible.

SEVENTH HOUSE: Associations. Marriage.

**Your companion is your reflection.
Everything you find in him, in
some way is in you.**

Gemini on 7th house cusp.

It is possible that you marry young and that your decision may be made immaturity. You will choose an intelligent, talkative, curious, but also very unstable and changeable man as a husband. Together you could share many happy moments, travels, entertainment, and most importantly, conversations. Neither will be sufficiently mature, and that could cause some susceptibility to family opinions. Your husband can be naive or easily influenced and, if you do not surround yourself with positive people, you may live in discord or have fights instigated by others.

Your need to have a flexible and changing relationship, and the inconsistency of both make the probability of divorce great, especially if the relationship becomes boring or monotonous. It is necessary that you work together in difficult moments and that you communicate well. On your part, you must avoid the tendency to be aggressive or very demanding of him, learning to see your mistakes too.

Your interests will change a lot through time and it is necessary that your relationship adjusts to such changes; otherwise, you will look for a new person. This astrological influence can bring you two or more marriages.

Do not evaluate the success of a relationship by the result because it does not depend solely upon you. Always analyze what you have done: if you have offered yourself correctly, if you have loved sincerely, if you have set aside your selfishness, etc. What the other person does is his own responsibility and you cannot manipulate it. In a couple, the responsibilities are always divided in half; take care of your share. At times, one gives everything and does not receive anything; it does not matter. Destiny will take care of it, returning all the love you may have given. Do not make the mistake of secluding or hardening yourself or becoming emotionally detached because of suffering caused by others. Try always to be truthful with what you feel and give yourself fearlessly because in the Universe nothing gets lost and everything you give, you will get back.

EIGHTH HOUSE: Dangers. Inheritances. Legacies.

Cancer on 8th house cusp.

Your main element of danger is related to the water. You must be very careful if you go to a river, lake or ocean. In reality, this influence is benevolent and protective, and will free you from true dangers.

It is probable that you will, later in life, receive family inheritances or other major inherited goods, such as real estate or lands that will increase your estate.

Things that benefit Pisces:

YOUR FAVORABLE DAY: Wednesday and Thursday.

NUMBER: 3 and 6.

COLORS: emerald green, light yellow, pink and white. All the diverse tones of blue and green favor you greatly. It is important that you choose the colors of your garments and those in your environment wisely because they alter your moods considerably. Avoid strong colors.

STONES: emerald, pink amethyst, opal, selenite and pearls.

METAL: tin. In jewelry silver and platinum favor you more than gold. If you use the latter, you must accompany it by one of the stones above.

Equal energies attract; because of this, people with the same tastes gather together. If you want to attract positive people to your life and experience happy situations, you must take care to improve your own energy. The only way to find a good companion, good friend, good job, etc., is by being good yourself, radiating positive energy. Keep in mind that you will never conquer someone using pity or threats, instead you will provoke the opposite response. If you desire someone or something, you have to be splendid inside and out. If you feel good about yourself, you will attract the best.

Jupiter in 8th house:

You are very skillful at managing your own or someone else's money. You could excel as an administrator, accountant or banker. It is also possible that you will receive money or possessions through marriage or inheritances. You will have an intense emotional and sexual life, which could make you selfish or show a lack of judgment. You will have a very long life.

Jupiter in Leo:

You need to feel proud of everything you do and you seek the approval of your friends and family. You are very likable and full of good humor and you monopolize everyone's attention. You are prone to exaggeration and will want everything, and in large amounts. You also have a strong sense of justice and the tendency to command. Because of your "likeability" you will have no trouble asserting yourself and will always achieve what you want.

Jupiter Trine Uranus:

You possess a great originality and creative power. You are determined and practical and will achieve any goal that you set out to do. Your personal freedom will always be important and you will resist ties and limitations. You possess a great mental energy, and though you could be very warm you will not be sentimental.

Pluto in 8th house:

You will have a long life thanks to your ability to regenerate yourself. You will experience many intense situations and deep changes. You are interested in understanding the different processes of human existence, especially life and death, and you will dedicate many hours of study to those subjects. Your interest goes beyond curiosity; there is a very deep psychological impulse to be connected with mysteries in general. You could excel in research, medicine or in natural sciences. Your inquisitive mind will lead you to seek answers in the spiritual plane and you will seek the most coherent religion.

Pluto in Cancer:

Your generation has strong feelings towards their home and country. They are sentimental and zealously defend their territory, which is why they cling to the known and familiar to the detriment of cultural exchange with other peoples. They will also demonstrate a sacrificial spirit of their own, seeking their own well-being and protection. Elizabeth, as a part of this movement, you are sensitive to needy people and participate in social activities for the aid of children, single mothers, the homeless, etc.; you are very intuitive and respond instinctively to situations; you must learn to watch your great sensitivity because you could get hurt and become resentful.

NINTH HOUSE: Religion. Long trips.

Virgo on 9th house cusp.

It is probable that you are not satisfied with your religion and you will not find one that fulfills your needs, because you have a scientific attitude and your mind seeks logical answers that no religion can offer. You want to have proof of God's existence, or at least, a coherent explanation of it, and you find that each religion contains semi-truths. You must find the answers in this plane through meditation, without letting overly rational thoughts intervene.

In addition, it is probable that you take long trips abroad to study or work. These will not be frequent but every time you travel you will grow intellectually.

Neptune in 9th house:

You are tolerant, intuitive, impressionable and religious. You are interested in

educational programs and social reform. You enjoy traveling and especially trips that take you to exotic and faraway places. You will find it easy to communicate in other languages. It is important that you do not become extreme, such as developing religious fanaticism, and also that you adopt a practical attitude to your problems.

Neptune in Virgo:

Your generation has new concepts about work conditions and also about health care. They are humanitarian and care about social causes, experiencing an internal struggle between emotion and reasoning. Elizabeth, as a part of this generation, you could be somewhat eccentric and final in your way of thinking, for example being strict about your idea of what is good and bad; your tendency towards perfectionism could lead you to discard many of your fantasies. You are a good critic and will always be ready to overthrow old ideas and change them for new ones.

TENTH HOUSE: Vocation. Professional success.

Note: in order to come to a more accurate conclusion, you must combine the information below with the characteristics of your Sun (Chapter 1) and your Moon (Chapter 2).

First 15 degrees of Libra MC

Your destiny will lead you to excel in activities where you can demonstrate your great sense of justice, your love of harmony and your artistic gifts. You demonstrate a great adaptability, patience, and persistence in reaching what you have in mind. In reality, you only appear to be flexible--inside you never change or listen to anyone; you follow your own goals but no one notices it because you find the most appropriate route without damaging other people's egos and without attracting too much attention. Elizabeth, you forget offenses when it is convenient but you can hold grudges that you will act on once you reach the position you long for. You are reserved and you always show an enchanting smile, gentle and courteous behavior, a soft voice and a humble attitude towards others. Diplomacy and personal charm are your best weapons.

Your vocational choice points toward one of the following professions: lawyer, diplomat, judge, mediator, arbitrator, artist, fashion designer, cosmetologist, salesperson, beautician, etc., or any other profession where you can be in contact with the public.

Your home could have been a bit tumultuous and disordered, with one authoritative parent who imposed his/her rule aggressively. You sought independence prematurely and assumed many responsibilities in your youth. Elizabeth, you are interested in making your way in the world on your own and you will not depend on your family or others. The people of Libra will be strongly influential in your destiny.

ELEVENTH HOUSE: Friendship. Group activities.

"A shared grief is divided, a joy is multiplied."

Scorpio on 11th house cusp.

You are very selective with your friends. You need time to find the degree of trust that you can place in each person before giving yourself. You are very suspicious and cautious, which will mean you have few friends but any friendships you do have are very close and lasting. You choose people who are authoritative and passionate in their ideas. You will share moments of mutual exchange of ideas and others that are more tense since you prefer to fight and argue rather than keep your ideas to yourself, and the friends you choose feel the same way. You enjoy sincere and very frank friends; it will be difficult for you to forgive or forget betrayals or lies from others.

Your social life will not be intense due to your selective attitude and you will not find it easy to be in groups or associations where you have to be flexible or subdue your personality.

TWELFTH HOUSE: Karma. Secret enemies. Bankruptcy.

"Impossible things only require a little more time."

Scorpio on 12th house cusp.

You must learn to express your aggressiveness in a constructive and positive manner. You are full of physical energy and it is important that you keep your body active, otherwise your anxiety could increase. You do not take full advantage of your impulses and dynamic energy and you run the risk of leaving many of your projects half done. Also, you tend to neglect your intuition and your ability to develop yourself in the metaphysical world or in the occult sciences.

This influence will lead you to experience secret passions. Your sexual life will be extremely private and maybe a bit complex. It is important that you eliminate taboos or inhibitions that stop you from reaching a more fulfilled life romantically.

Throughout your life you could experience jealous or violent scenes, or confront powerful or secret enemies. In another area of your life, you could find serious problems or even fraud having to do with inheritances.
